Increasing Our Inner Peace

from Susan J. Ackerman

shifraj@icloud.com

A new October has arrived with all its glorious colors. The month of October opens our eyes to the color-filled beauty that life brings us. It is a time to celebrate the beauty of every living thing, from people and animals to plants. As its glorious vistas open up, we will see longer views and take their wonder-filled messages deep into our hearts.

During this time, the Sun is in the Sign of Libra. This is the part of us that loves beauty and harmony in all of life. It asks us to open our hearts to that truth every day.

Our beliefs about the positive nature of all creation will shape what will become in Divine Timing. The more we are peace-filled within and appreciate the beauty inside ourselves and inside every living thing, the more beautiful life will become. When we approach every day with a knowledge of this Truth, it will manifest in Perfect Divine Timing. May we join together in sending out this Truth.

As an overview, the Sign of Libra asks us to understand all sides of every issue and helps us to find a balance. That's why it is a mediator, a most needed role in this time. Libran energy is refined, diplomatic and considerate. The part of this energy that we don't want to live in is its need to please others and lose its own inner truth in doing that. We must always live in our own inner truth.

Let's practice accepting everyone exactly where they are in their development and know they will grow in Perfect Diving Timing. Let's practice seeing the beauty in everything. Let's practice being the Peace that loves all of life, and in Divine Timing, harmony will replace strife and imbalance.

May we find the beauty in every part of our lives and send out the Light of our Love to everyone and everything. Then Inner Peace will become our outer reality.

Happy New October!

With Love and Light from your
Fellow Student of Life and Friend,
Susan
