Angel Messenger 72

November Inner Peace 2026

from Susan J. Ackerman shifraj@icloud.com

Welcome to the month of November when the Sun is in the Sign of Scorpio, the sign of change and new beginnings. We can already see the changes even though the month has barely begun.

We are living in a time of change which challenges our faith in life since no one knows how the changes will play out. At this time, we are being asked to understand the intangible truth of life that lies beneath the surface. It is a powerful reminder that our positive belief in life will help us

manifest the highest outcome in Divine Timing, no matter what is happening on the surface.

Scorpio is the only Sign that has four different symbols: the scorpion, the eagle, the phoenix and the dove of peace. These symbols represent the four stages of inner growth and help us understand the truth that lies beneath the surface of life.

The scorpion stage lives by mistrusting all and attacking whatever threatens it. The eagle stage is independent and attacks only when it feels threatened. The phoenix stage represents the time in our lives when we lose everything and have to begin again. The final stage, the dove of peace, arrives when we have let go of what we no longer need and open our hearts to Inner Peace. We can observe these stages being played out in our world.

Scorpio energy helps us evaluate and understand where each person is in their journey. Its positive traits are being perceptive, intense and magical. It is a detective, problem solver, very intense and creative. In its ego part, it is jealous, invasive, pessimistic, and into power.

This is a time when endings and beginnings take the forefront, providing opportunities to know that life is eternal. It teaches us to transform loss into gain and to have faith in a positive future. It helps us know that life is continual change and to accept all endings and beginnings. We learn to find stability and peace in all changes.

Let's practice accepting everyone exactly where they are in their development and know they will grow in Perfect Diving Timing.

May we find the peace in every change and send out the Light of our Love to everyone and everything. Then Inner Peace will become our outer reality.

Happy New November!

With Love and Light from your
